

ONI AKINWUMI PETER

Lagos, Nigeria · 08146389730 / 09123775452 · oniakinwumipeter@gmail.com · <https://linkedin.com/in/akinwumi-oni>

PROFESSIONAL SUMMARY

Versatile technology professional and Engineering Physics graduate (Obafemi Awolowo University, 2024) with demonstrated expertise spanning full-stack web development, data analytics, digital marketing infrastructure, and project management. Holds a growing portfolio of professional diplomas and industry certifications across software development, cybersecurity, human resources, and quality management (ISO 9001:2015). Experienced in delivering high-fidelity web platforms, CRM systems, and conversion-optimised funnels for clients across health, media, and marketing sectors. Combines strong analytical foundations with practical digital execution skills to deliver measurable outcomes across technical and business environments.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, Bootstrap, Tailwind CSS, Shadcn UI, JavaScript (ES6+), ReactJS

Backend Development: Node.js, Express.js, MongoDB, MySQL — MERN Stack

DevOps & Version Control: Git, GitHub, Docker (Containerisation)

Data & Analytics: Python, PowerBI, Tableau, Microsoft Excel, Jupyter Notebook, Google Colab

CMS & Web Builders: WordPress, Elementor, Wix Studio, Framer, Dora 3D

CRM & Marketing Tools: GoHighLevel, ClickFunnels (Classic & 2.0), MailChimp, Klaviyo

Collaboration & PM Tools: Asana, Slack

Core Competencies: Project Management (Agile/PM), ISO 9001:2015 QMS, Customer Service & CRM, Technical Documentation

PROFESSIONAL EXPERIENCE

Lead Freelance Web Developer & Funnel Optimisation Specialist | *Remote Contract Portfolio* **2024 – Present**

Platform Architecture & CRM Systems

- Engineered pixel-perfect, fully functional replications of enterprise business dashboard interfaces within GoHighLevel, including custom funnels, secure client login portals, and interactive user dashboards.
- Successfully migrated complete digital marketing infrastructures from ClickFunnels Classic to ClickFunnels 2.0, ensuring zero data loss while preserving affiliate signup frameworks and multi-step upsell sequences.
- Formulated advanced API integrations using webhook documentation to connect complex third-party software and automated event triggers into centralised CRM platforms.

3D & Spatial Web Interface Design

- Pioneered immersive spatial user interfaces using Dora 3D and Canva assets, transforming flat website layouts into interactive 3D environments for media production, branding, and AI marketing agencies.

Health & Medical Sector Web Deployment

- Developed, updated, and launched premium responsive web platforms for chiropractic and healthcare networks using WordPress and Elementor, with a focus on mobile performance and visual brand consistency.
- Audited and restructured user navigation pathways and appointment booking forms across regional medical brand portfolios.

Sales Funnels & Marketing Content

- Designed and deployed high-converting sales pages, checkout flows, and funnel architectures for industry events, consumer electronics, and digital publication product lines.
- Produced technical video explainers guiding clients through back-end system architectures and CRM dashboard operations.

Educator (NYSC) | *Christian Evangelical Fellowship of Nations Model Academy*

2026

- Served as Primary 4 class teacher, delivering structured lesson plans that measurably improved students' mental agility and problem-solving capacity through interactive and inquiry-based sessions.
- Founded and led a Mathematics Club (Primary 3–JSS3) to break down core mathematical concepts through peer-led problem solving and group challenges.
- Launched a Readers Club to cultivate reading culture, critical thinking, and listening skills among students across multiple year groups.
- Designed and maintained digital academic progress reports for pupils using Microsoft Excel, enabling data-driven tracking of student performance over the service period.

Undergraduate Researcher — B.Sc. Thesis Project
| Obafemi Awolowo University, Ile-Ife
2024

Photoconductivity and UV-Vis Study of Polyaniline–Polyvinylcarbazole (PANI-PVK) Composites

- Synthesised organic semiconducting polymer blends combining Polyaniline and Polyvinylcarbazole matrix frameworks to investigate enhanced electrical and optoelectronic behaviours.
- Conducted systematic doping and chemical processing to optimise structural homogeneity of polymer thin films and composite samples.
- Utilised UV-Vis spectrophotometry to record, plot, and interpret optical absorbance spectra — determining energy band gaps and electronic transition behaviours across varying composite weight ratios.
- Measured and quantified photophysical response mechanisms, analysing steady-state photoconductivity under targeted light illumination to evaluate charge carrier generation and transport efficiency.
- Processed, modelled, and visualised experimental datasets using scientific graphing software; documented findings in a formal research dissertation and defended technical methodologies before an academic examination panel.

EDUCATION

B.Sc. Engineering Physics
— Obafemi Awolowo University, Ile-Ife
2024

Professional Diploma in Customer Service Relationship Management
— Fermazione Business School, Abuja
March 2026

Professional Diploma in Health, Safety and Environment (Levels 1–3)
— Fermazione Business School, Abuja
March 2026

Professional Diploma in Human Resources Management
— ICBMD, Abuja
October 2025

Professional Diploma in Project Management
— ICBMD, Abuja
October 2025

Professional Diploma in Entrepreneurship and Business Development
— ICBMD, Abuja
October 2025

West Africa Senior School Certificate (WASSCE)
— Ikere High School, Ikere-Ekiti
2015

CERTIFICATIONS & PROFESSIONAL MEMBERSHIPS

Master Certificate — Cloud Systems, Technical Core & Professional Readiness (22 Modules)
April 2026

Digital Skills Nigeria · ID: Tracking ID: 5595

Graduate Member — ISO 9001:2015 Quality Management Framework
October 2025

International Capacity Building and Management Development (ICBMD), Nigeria · ID: ICBMD/ISO9001-2015/GM/NC/2025/00050

Certified Project Management Professional (CPMP)
October 2025

ICBMD, Nigeria · ID: ICBMD/CPMP/NG/0010106/2025

Certified Human Resources Management Professional (CHRM)
October 2025

ICBMD, Nigeria · ID: ICBMD/CHRM/NG/0010100/2025

Entrepreneurship and Business Development Graduate
October 2025

ICBMD, Nigeria · ID: ICBMD/EBD/NG/0010107/2025

Cyber Security Basics & Fundamentals Graduate — Junior Cybersecurity Analyst Track
February 2025

Digital Exchange Academy · ID: Verification Code: 0123

Software Development Graduate — 3 Million Technical Talent (3MTT) Nigeria
December 2024

CONFERENCES, WORKSHOPS & EVENTS

Technical Media Operations Specialist & Conference Participant | *9th National Conference on Environment and Health* **October 2024**

- Awarded Certificate of Participation by the Living Science Foundation, Ile-Ife, hosted at Obafemi Awolowo University.
- Engaged in cross-disciplinary sessions on bioengineering, biodiversity, and sustainable development frameworks.
- Commanded live technical systems as part of the Media and Projection Team — managing real-time audio-visual broadcasting, multi-screen display configurations, and digital content feeds across the two-day event.
- Coordinated with the media production crew to monitor live hardware layouts, maintain transmission signal stability, and troubleshoot event technical assets under live conditions.

ICT Training Fellow | *Centre of Excellence in Software Engineering, OAU Ile-Ife*

2018

- Completed intensive two-week foundational training in computational systems, digital infrastructure design, workspace directories, and ICT frameworks.
